

SAM PuttStudio 8

The ultimate training environment

The SAM PuttStudio sets the benchmark for high-performance golf studios, transforming your green into the ultimate learning hub. Master the direction and speed of your putts, enhance your green-reading skills, and understand the interplay of speed and line on breaks.

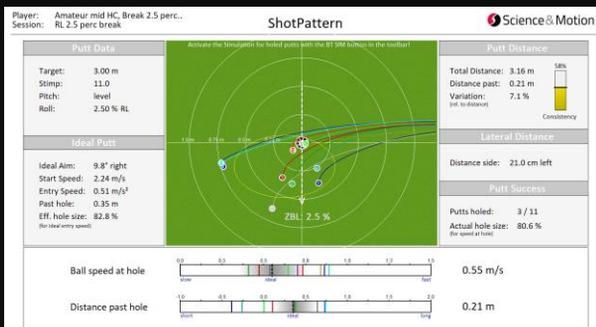

Push your limits with interactive training drills projected onto the surface, or compete with others in engaging games.

What's New in PuttStudio 8?

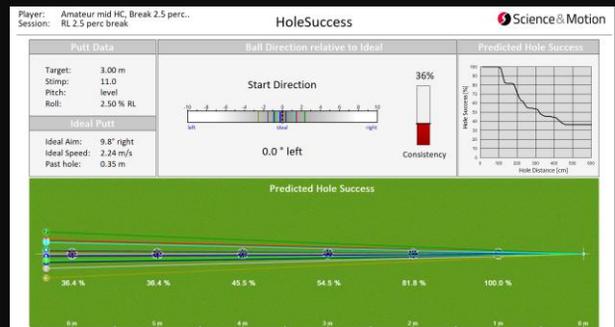

PuttStudio 8 has undergone a **comprehensive redesign**, enhancing both functionality and user experience.

- ✓ **Auto-Calibration** - eliminates the need for manual recalibration of surface position and slope.
- ✓ **Automatic slope detection** - accurately measures the real-time slope of any surface and platform.
- ✓ **BallTracker-only mode** - for sensor-free measurement and training, transforming SAM PuttStudio into a self-serve kiosk.
- ✓ **Projection-only mode** - allows the projection of elements such as templates or footlines onto the surface in PuttLab measurements.

- ✓ **NEW: Shot Pattern Report** to analyze key performance metrics for your actual putts.

- ✓ **NEW: Start Line Report** maps your ball's starting direction to various distances.

- ✓ **New iPad App** - connects directly to your Windows PC to seamlessly control the full Studio from your iPad

New PuttStudio 8 Drills

The drills database has been expanded with new performance-focused drills, offering more variety in training.

- ✓ **Corridor Drills** - explore different combinations of speed and aim on breaking putts.
- ✓ **Combine Drills** - multiple tasks in a single session, creating more diverse practice routines.
- ✓ **Bullseye Master** - enables the Bullseye Drill to be played to the real Master hole.
- ✓ **Variable start positions** - simulate real-game scenarios and increase difficulty of the Drills

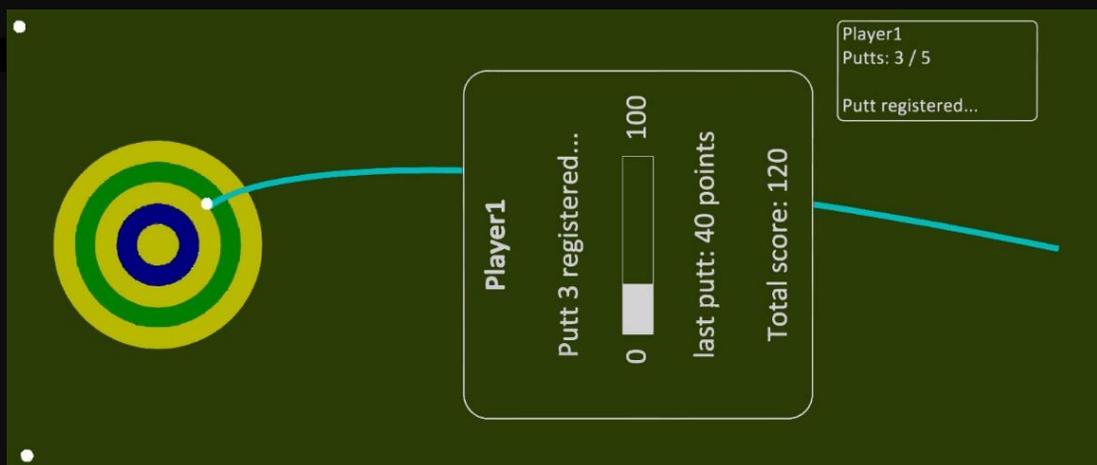

- ✓ **New projection objects** - enhance feedback and engagement with perception cues, putt data overlays, or a break clock.

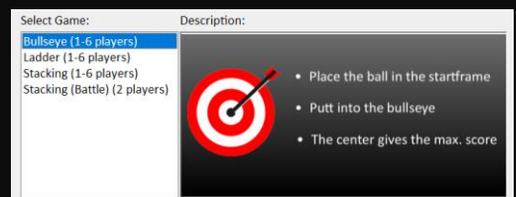

- ✓ **Advanced Combine Tests** - Comprehensive Performance Tests are under development and will be available soon!

New PuttStudio 8 Games

The new Games Engine comes with a complete redesign, delivering a more engaging experience.

- ✓ **Successive or alternating player mode** for flexible multiplayer games
- ✓ **Improved surface projection** to enhance the visual display
- ✓ **Upgraded graphics and animations** add excitement and fun to every game
- ✓ **More games coming in our next release**, including Shootout Battle, 3 Wins, revolutionary Card games, and more!

Why Update to PuttStudio 8?

Here's why coaches, fitters, and facilities should upgrade:

- ✓ **Enhanced Insights:** Updated ball tracking reports and improved graphs provide a deeper understanding of your performance on breaking putts.
- ✓ **Sensor Free Training:** The new sensor-free training mode transforms SAM PuttStudio into a self-service kiosk for any golfer.
- ✓ **Expanded Training Features:** A wider range of Drills, smarter Games, and new Display Objects make the training experience significantly more interactive and immersive.

Stay updated automatically!

PuttStudio 8 includes software subscriptions — giving you automatic access to the latest features, updates, and improvements as soon as they're released.
